PROFESSIONAL SUMMARY

Computer Science student passionate about Product Management, User Research, and Business Strategy. Built product case studies, web products, and product teardowns while gaining early startup exposure through a short internship involving SOP documentation, business communication, AI-assisted workflows, and cross-functional execution.

EXPERIENCE

Executive Assistant Intern | EASTEAM (US-based Startup) | Jul 2026 (10-day Internship)

- Supported founder operations through SOP creation, workflow documentation, and business communication.
- Drafted professional emails, meeting documentation, and operational processes.
- Collaborated across functions and explored AI-assisted workflow improvements.

SKILLS

Product Skills

- Product Management • Product Teardowns • User Research • Competitive Analysis • User Stories • PRD Writing •

Product Strategy

Business Skills

- Business Analysis • Market Research • Stakeholder Communication • Process Improvement • KPI Thinking

Technical Skills

- Notion • Slack • Jira • Figma • Wireframing & User Flows • HTML, CSS, JavaScript • Git & GitHub • REST APIs • AI-Assisted Workflows

Core Skills

- Analytical Thinking • Problem Solving • Strategic Thinking • Creative Problem Solving

PROJECTS

SusWord — Real-Time Multiplayer Social Deduction Game | React · TypeScript · Socket.IO · Node.js

- Owned full product lifecycle: defined game mechanics PRD, designed a 5-phase state machine, and shipped a multiplayer product for 3–8 players.
- Identified engagement drop-off between rounds and designed imposter mechanics to sustain session retention.
- Wrote Socket.IO event model, backend schema, and phased implementation roadmap across 4 milestones.

HabitMetric — Productivity & Habit Management Platform | React · JavaScript · Tailwind CSS

- Defined product requirements around habit recurrence, streak tracking, and progress visualization from user pain points.
- Designed a persistent browser-storage workflow to simplify daily planning and reduce repetitive task entry.

PM Portfolio Website & Blog

- Published product teardowns of Duolingo, Blinkit, Spotify, and Airbnb covering UX, product strategy, monetization, and business decisions.
- Designed a 30-60-90 day growth strategy for a Founder's Office assignment with segmentation, experiments, KPIs, and scaling recommendations.

PRODUCT THINKING & RESEARCH

Product Teardown Lab (Ongoing) — [productandperspective.blogspot.com](#)

- Analyze products using a structured framework covering user problems, product decisions, business impact, North Star metrics, competitor analysis, and improvement opportunities.
- Publish detailed product teardowns featuring user journey analysis, feature mechanics, business impact, competitor comparisons, and improvement hypotheses.

EDUCATION

Ajay Kumar Garg Engineering College (AKGEC) — B.Tech Computer Science | Expected 2027 | CGPA: 8.24/10
Class XII (CISCE): 80.40% | Class X (ICSE): 82.70%
